Detailed Action

The corrected formal drawing submitted 10/14/03 is approved.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-2, 4-13, 16-20, 22-28, 35-37, 41-43 and 45-46 rejected under 35

U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicants have amended claims 1, 18 and 35 to recite that the nucleic acid constituent of the infectious SV40 particle complex "...is not a nucleoprotein...". There is no support in the specification for this broad negative limitation with regard to the nature of the nucleic acid component of the recited infectious SV40 particle complexes. Applicants point to support for this limitation on p. 34 of the specification; however, this portion of the specification only refers to the possible role of LCR elements involved in *in vivo* formation of "...higher order nucleoprotein structures...". This is a NEW MATTER rejection.

Any rejections not repeated in this Office Action are withdrawn.

Art Unit: 1636

Claims 29-34 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
